Nakshatra Predictions

GENERAL PREDICTIONS

INTRODUCTION

This report describes the influence of planets on your character and life. Astrology is a science propounded by ancient sages with its foundation on Karma and Rebirth Theory. Any mental, verbal or physical action is known as Karma. Every action or Karma produces its reaction. This is same as Newton's 3rd law of motion in physical science that for every action there is an equal and opposite reaction.' It proves that no action will be waste and nothing can happen without a cause. God is neither partial nor unjust, and everything happens according to one's actions in the previous birth. The doctrines of karma alone explain and reconcile man to the terrible and apparent injustice in life. The unerring and divine law of karma alone can explain why some people who have not done anything wrong in this life suffer, and some people even though have done wrong things, enjoy life apparently. God who is just and impartial will not give different results to the people who are His Children. It is the irresistible Law of Karma (causation) that gives different results in life to different people. The planets indicate and bestow results based on the good and evil karmas done by the native during his/her past birth.

Sastras say that karmas are of three types - 1.Drudha karma 2.Drudha Aadrudha karma and 3.Aadrudha karma. A general nature of these karmas may be as below.

1.DRUDHA KARMA .Inexcusable mistake Or crime of severe nature deliberately done come under this category. Murder, raping, denying food and shelter to the invalid parents, cheating minor brothers during partition, cruelty towards the poor class and helpless servants and denying their wages, cheating etc. are examples of this type of karma.

2.DRUDHA AADRUDHA KARMA. This is an excusable mistake not done deliberately. It is just like an ignorant person having purchased a ticket to Delhi getting into a train to Bombay by mistake, and finding guilty by the Ticket Examiner, or a vehicle driver without his mistake, getting involved in an accident death of a pedestrian while the latter was carelessly and suddenly crossing the road. Here the crime committed is so simple that the person can be excused on his humble petition.

3.AADRUDHA KARMA. This is a crime of negligible and insignificant nature. A young boy tries to pluck some fruits from a tree overhanging to the road. When the owner notes the boy and whistles, the boy retreats from his attempt. This is similar to the karmas coming under this group. Here the boy had an evil thought but did not commit theft.

The Sastras say that the evil effects (reactions) of evil actions done in the previous birth can be mitigated or alleviated by good actions, santi karmas(propitiations), prayers, worship of God, charity etc. But this is applicable to the 2nd and 3rd types of karmas only. The 1st type is irrevocable and its evil results have to be suffered. If this Divine Law is not available, human beings will lead a haphazard way of life, without fear of anything and loosing all virtues and morals in life. If some bad things are predicted, one should understand that they are indications of the results of the actions in the previous birth, and try to alleviate the bad effects by good deeds, prayers, charity, appropriate santi karmas, will power etc. and face the befalling results without getting dejected and cursing the Destiny. Do not become the slave of Destiny.

Repetitions or contradictions if any found in the report show the interactive nature of various results to be realized at different stages in the life. Results which may not be directly applicable to children and women will be experienced by their parents/ husbands and the native may have indirect impact of the results. The socio-economic, cultural and educational conditions prevalent in the society and country will have good influence in the quantum of results experienced

With their extra-ordinary talents and cleverness they will shine in their field of activities and get the appreciation of others and reach high positions in life. They will sincerely and honestly devote themselves to the work they undertake. They may not become disappointed on account of failures; they will continue their efforts. It is only after their marriage that their successes will come. Though they may have love and respect for their father, but on account of their peculiar individuality and obstinacy they may not often derive much benefit from father. Their married life will be happy. They will have the good fortune to get the partner of their choice in their life. Their children will have love and respect for them. They will be prominent persons of their family. Their behaviour will be gentlemanly and hearty. They may be capable of adjusting their life according to the occasions and circumstances. Impartiality will be a trait of their nature. Since they are likely to fall victims to inducements and intoxicants, they have to take care. Since there is a trace of cowardice in their character, they may escape from circumstances of quarrels and fights. In order to save their honour they will undergo any trials. They may always be engaged in some activities. Their mind will be vacillating. Persons liking loneliness, they will have interest in philosophy, Astrology and occult sciences.

Aswini, Krithika, Mrigasira and Puram stars will not be compatible to them. They can move easily with persons born under Aries, Cancer, Leo, Scorpio and Sagittarius. Generally they have good health. They may be careless about their health. If they become ill they will see the doctor only after it has become serious. Rheumatism, stomach ailments, dysentery, hernia and heart disease are the diseases which may most probably afflict them.

You are born in Bava (Simha) Karana. Those born in this karana are endowed with adventurous spirit, courage, physical strength, renown and long life.

5. Nityayoga Phalam

You are born in Dhriti Nithyayoga. Those born in this yoga will be endowed with good reputation, affluence, wealth, fortune, courage and peaceful attitude.

Planet Predictions

GRAHAPHALAM (RESULTS OF PLANETS IN RASI, BHAVA ETC.)

(There are a few different concepts of bhava calculations among Astrologers. Among these the equal house division and Sreepathy method of house (bhava) division are mainly used in Indian Astrology. Dr. B.V.Raman, the world famous Astrologer in his book 'A Manual of Hindu Astrology' says that the equal house system appears to yield more satisfactory results. So here the more commonly used equal house division is adopted. In this the midpoint of the first bhava is the longitude of the Ascendant (Lagna) and the midpoints of the successive bhavas will have the same longitude of Lagna in the successive Rasas. Each bhava having a range of 30 deg starts from 15 deg behind the mid points of each bhava and extends up to 15 deg ahead of the midpoints. A planet whose longitude falls in the range of a particular bhava is said to be in that bhava and will offer the results of that bhava. Rasi and bhava results of planets are different. Each bhava signifies certain portfolios (aspects) in life such as body, wealth, brothers/sisters, mother etc beginning with Lagna Bhava (first. bhava). But the Rasi Results of a planet are based on the qualities of the planet and the nature of the rasi in which it is posited. The bhava positions of planets are marked in the Bhava Chart and in this each bhava is counted from the Lagna (first) bhava. Please note that the actual positions of the planets are as marked in the Rasi Chart. The bhava results of the various planets will be realised mostly during their dasa/ bhukthi periods if the periods operate at appropriate ages of the native. Contradictions if any found, will be on account of the influence and interactions of other planets.)

Ashtakavarga Predictions

1.ASHATAK VARGA PREDICTIONS.

1.GENERAL : In Ashtaka Varga Predictions Bhava positions of planets are taken as Rasi positions from Lagna Rasi. The maximum number of bindus (akshas) in a rasi in the Ashtaka Varga of a planet will be 8. Rasis having more than 4 bindus are auspicious in increasing quantum for that particular planet. 4 bindu is medium. Less than 4 is bad and evil increases towards 0 bindu. If a planet at birth is posited in a rasi having more than 4 bindus in his A.V, he is considered to be strong. Four bindu medium strength. Less than 4 bindus, strength will be decreasing. When the planet transits in a rasi (ie. whenever it travels in that rasi- in Gochara) having more than 4 bindus in his A.V, good results on account of that planet will be experienced according to his kaarakatwa, bhaavaadhipaty and position at birth. When it transits in rasis having less than 4 bindus, bad results will be similarly experienced.

RESULTS OF SARVASTAKA VARGA

2.RESULTS OF SHRESHTA, MADHYA AND KASHTA RASIS

In the Sarva Ashtaka Varga (Total points in each sign), Signs (Rasis) having more than or equal to 30 bindus (numbers) are best (giving good results of the bhavas coming in those signs counted from Ascendant). Signs having 25 to 29 numbers give middling results. Signs having less than 25 numbers give bad results regarding the bhava (aspect of life).

2.1 SHRESHTA RASIS (BEST SIGNS): = Taurus, Gemini, Scorpio, Capricorn, Pisces,

2.2 MADHYAMA RASIS (MIDDLING) : = Aries, Leo, Sagittarius,

2.3 KASHTA RASIS (WORST SIGNS) : = Cancer, Virgo, Libra, Aurius,

Shreshta Rasis are good for all auspicious deeds and Kashta rasis are bad. If Shreshta Rasis are selected as Lagna or Moon sign for good deeds and journeys etc, it will be quite auspicious and successful. Dealings and alliances with persons born in these signs will be favourable and gainful. Planets in Shreshta Rasis will bestow favourable results.

Avoid performing good deeds and long journeys with Kashta Rasis as Lagna or Moon sign. Dealings with persons born in your Kashta Rasis will be a source of affliction and sorrow. Planets in Kashta Rasis may give unfavourable results. Madhyama Rasis will be of middling quality.

Since Aadikhanda is greater than other two khandas (sections), good results and happiness will be realised comparatively more during childhood than in youth and old age.

6.RESULTS OF ANTAR BHAAGA AND BAHIR BHAAGA
